RE: Daniel Onoda / Letter of Recommendation

I'm pleased to write this letter in support of Dan Onoda, who worked with our team as a motion designer and video editor for the past nine years.

Dan helped us create a range of original motion graphics for our projects, including animated data visualizations, logos and title sequences and kinetic type-driven videos. He helped us translate complex financial information and market analysis into digestible, user-friendly animations to elevate the presentation and accessibility of our content. Dan integrated those elements into a diverse mix of video content including narrative series, event opens & interstitial collateral and social-focused shorts. He was a valued member of our team and I believe would make an excellent addition to yours.

Please feel free to contact me if you have any questions or if I can provide any further information.

Sincerely,

Brian Mahon
